The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3, 6-10, and 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Clark in combination with Rutan et al. Clark teaches a device providing photodynamic therapy and using filters to control the wavelength of diagnostic and treatment light. Rutan et al. teaches a discharge lamp as claimed. It would have been obvious to the artisan of ordinary skill to employ the lamp of Rutan et al in the device of Clark, since Clark requires no particular source, and since devices such as that of Rutan et al are simpler and easier to manufacture, official notice of which is hereby taken, this producing a device such as claimed.

Claims 4, 5, 11, and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Clark in combination with Rutan et al as applied to claims 1-3, 6-10, and 13-15 are above, and further in view of TOKYO. TOKYO teaches adding Rubidium halide and Potassium halide to a lamp containing sodium halide. It would have obvious to the artisan of ordinary skill to use Rubidium halide and Potassium halide in the lamp of Rutan et al, since this provides a more stable output and a longer bulb life, as taught by TOKYO, thus producing a device such as claimed.

Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3739

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
